## APPLICATION FORM

TO WORK WITH ME 1:1  
AS YOUR MENTOR

*I am very selective with my applicants, particularly for 1:1 mentorship.  
And I ONLY work with 6 leaders a year.*

**It is my vision in life** to mentor people who are fully committed and ready to heal and transform at the absolute deepest level who they were born to be. Why? Because when my mentees are in alignment with their truth and power, they go out into the world as impactful leaders, serving life at the highest level.

**If it is your vision** to heal at the deepest level and align to your full empowered authentic self, and you are 100% fully committed to investing at a high level financially towards this and doing the deepest work required to gain the results you want, then please do apply and let's speak.

**If it is your vision** to be a leader in the paradigm shift we are in right now, and you feel a deep calling to birth something impactful and powerful aligned with your truest authentic expression, and you are 100% fully committed to investing at a high level financially towards this and doing the deepest work required to gain the results you want, then please do apply and let's speak.

**If it is your vision** to dissolve and release all that you are carrying that is not yours nor who you authentically are, in service or full alignment to who you were born to be, and you are 100% fully committed to investing at a high level financially towards this and doing the deepest work required to gain the results you want, then please do apply.

What has inspired you or called you to want to come and work with me in a 1:1 Mentorship for the next 12 months?

What are some of the challenges you are facing in your life, within yourself or your business?

Why do you think these challenges that you are facing are occurring?

What is the vision for your life 12 months from now if anything were possible?

Please share with me, how much self-development work you have done on yourself and invested in so far in your life. This mentorship is high-level and high-investment work. This means that it is a 100% committed process the whole way through. We will be diving deeply and working on everything, the deeply rooted patterns, stories, behaviour blocks. Any stuck unhealed trauma or wounds. Anything that is keeping you stuck in the story and blocking your full whole maturation.

To do this, first I need to know where you are right now in yourself in relation to emotional, energetic and transformational work.

What shifts and changes did you notice after doing the work you have done so far?

What hasn't changed?

From 1-10 are you ready to be fully committed now to face everything with humility, courage and an open heart in service of your full embodied maturation?

From 1-10 how willing are you to invest a considerable amount in your future growth and transformation?

In order for you to grow into this version of yourself, what do you feel that you need to do, be or have to make it possible?

Why is it important to you now, at this time in your life, to overcome these challenges and do what it takes to bring this vision to life?

If you were not to take action, what would life look like: 1 week from now, 1 month from now, 1 year from now?

Do you trust that I can help you in your maturation process?

This particular process requires a substantial financial investment. But you will be 'all in' and you will have me and my coaching on tap for the full time you are in mentorship with me. Plus you will have made this upgrading commitment with life and so life itself will be in support of your process.

- No. I have absolutely no financial resources available to invest at this time
- Yes, I currently have the financial resources set aside to invest in reaching my income and goals
- Yes, I have the ability to GET the financial resources to invest in myself.
- I trust that by saying YES to uplevelling my life, I will co-create what I need.

Right, now I am ready...

To step into the highest level upgrade of my maturation and transformation, to embody my fullest whole authentic expression, to heal and dissolve the wounds and trauma from the past, to come home to who I was born to be and YES I have the resources available to invest in this process...
