Academy of Maturation Coaching

NICKY CLINCH

Be a space for human beings
to come home to being

One of the most important
trainings and bodies of work
needed on the planet today

Be a space for human beings to come home to who they truly are

Maturation is a process of growing out of who you thought you were into who you were born to be.

In this professional coaching training you will learn how to become a powerful alive and conscious space for human beings to break free of the confines of the masks, defences and stories that are limiting their reality and blocking the possibility of a deeper more meaningful relationship to their life, in order to allow deep and powerful maturation to occur.

Learning all the deep and powerful layers in which human beings attach themselves to and identify with in order to protect themselves from pain, leading them to become who they thought they should be and abandoning who they truly are.

This way of non-living, surviving, robs someone of so much of their power, their truth and their wisdom. Blocking them from aligning with their own purpose, fulfilment and meaning to their life.

Now more than ever before there is a call for human beings to come home to who they truly are.

To awaken from the slumber of surviving, of searching outside of themselves to be fixed and saved, and to rise in consciousness. In order to stand as a space of love, power, truth and purpose in our world.

For you to become a space for this depth of involvement for another, you too will need to go through your own powerful deep maturation.

This training offers you both opportunities. To heal deeply and evolve in the space that you are in the world and the skills to facilitate the same for another.

If you feel a calling to participate in the deepest healing and awakening of human beings on our planet and wish to be using your life for this purpose, then this training is for you.

Read on for further details.

MODULE ONE
JUNE 2024

EXPERIENCING ENERGY & UNBLOCKING STAGNATION

For you to experience a human being as an energetic flow and to be able to unblock any stagnation in that flow.

CONTEXT

We are programmed to see human beings as fixed solid objects. But if we see them as merely solid fixed objects this is the only way in which you will be equipped to coach them.

But human being are not fixed solid objects. We are alive moving and flowing channels of energy and the energy that we are is the energy in which we create our reality.

In module one you will begin to shift your perception of the fixed solid human being to be able to experience a being as an energetic flow. And to be then begin to learn how to see where energy is stagnant and blocked, which in accordance is blocking the flow of their own life and reality. Learning the skills, insight and seeing to be able to create an unblocking of this stagnation to return to flow once again.

NICKY'S TRAINING IS UNLIKE ANYTHING I'VE EVER EXPERIENCED

"You learn not only how to facilitate someone through the process of maturation, but you go through this fundamental process yourself. I didn't know what lived deep inside of me, I didn't know there was all that strength, courage and love, if only I could let it out. I've now peeled back the layers of programming, patterns and beliefs and I stand here a different person, more myself than I ever have been. Being able to do this with my clients is an honour and privilege. I don't believe there's any other training like this – that explores human behaviour and unlocks it in this way."

MODULE TWO
JULY 2024

FIVE ELEMENTS & ALIGNMENT

For you to experience the natural cycles of life, seeing that all things are connected as one. To be able to support a human being to live aligned and in the flow.

CONTEXT

We have been living in a paradigm that has programmed us to experience ourselves as separate entities to the natural world around us. Perceiving we are a solid object in life – and life is outside of ourselves. But this perceived separation is exceptionally limiting. Living this way will keep a perceived separation limiting the possibility of the expansion of who we are.

In this module you will learn how everything in our natural world also flows within ourselves. That what is occurring on the inside is connecting to the outside. That there is a natural flow of life in which we are not living in but that we are part of. We are life itself.

The flow of the seasons directly connect to the flow of life and the cycles in which we participate in. Which connect to the cycle of emotional healing and the flow of human maturation itself. As a seed blooms into a bud into a flower into full bloom into wilting and back into the earth, all in alignment with the seasons and the natural world, so too do human beings mature in the same cycle internally and externally.

There is no separation. There never was and there never will be. When we can coach a being from this place to stand there is limitless possibility of growth, power, life, healing and expansion.

TO BE ABLE TO STAND IN A DIFFERENT PLACE IS LIBERATING

"This training has been the most powerful and eye opening of my life to date. Nicky's training is so unique in that she brings together many different threads so we may get the fullest picture of what it means to be human. I have a deeper insight into the being that is human being. My perceptions have been challenged and limitations have crumbled. It is such a gift. To strip it all back. To see how so much of our life is restricted by the constructs of our mind. To be able to stand in a different place is refreshing and liberating. It enables me to be that space for my clients' maturation. To be that space for continuous evolvment."

MODULE THREE
SEPTEMBER 2024

FIVE MASKS & DISSOLVING TRAUMA

For you to be able to see who someone 'is' distinct from their behaviour (beyond the mask) and to enquire with them into that behaviour such that it enriches who they are.

CONTEXT

Human beings are not their behaviour. They are not their beliefs, they are not their perceptions.

In the paradigm in which we have been living in we have been taught to see a beings behaviour as a calling sign of who they are. But this is only how they behave and behaviour is learnt.

In this module we will dive much deeper into the ways in which human beings attach themselves to five masks (defences) as a strategy to escape from pain and heart break. Learning the very distinct different kinds of trauma in which leads a being to then build their personalities in the form of a mask to protect and prevent them having to experience vulnerability, possibilities of rejection and experience pain.

But these masks are merely masks and are blocking beings from living in alignment from who they truly are. Existing in reality in survival rather than truly living. That the true depth and meaning of living and being alive is to be able to be fully present with all that moves through us without trying to escape or protect.

We will learn to be able to fully see a being for who they truly are, beyond the mask, beyond the personality they have adopted to present who they are, beyond the pain and into the wholeness and power and love of their truth. And to begin the dissolving process to walk them home.

You will dive deeply into the seeing of your own masks and begin the healing and dissolving process for yourselves.

NICKY'S TRAINING OPENED ME UP, WELL IT BLEW ME OPEN

"I found a space inside myself so so beyond; noise, story, pattern, whatever you want to call it. This sanctum is my own heart which I had forgotten. From re-discovering of my own heart I am safe enough to FEEL pain, joy, sadness, anger, love and my life is so much richer."

Who you will be when you complete this training
will not be the same person you are when you begin

THE TRAINING TOOK ME TO PLACES I DID NOT KNOW EXISTED IN LIFE

"Learning how to bring East and West philosophies together through, being taught the foundations and fundamentals of how trauma and pain become the directors of our lives without us even realising it. This course was a voyage of personal discovery and life changing awakening of what it means to be human.

It has transformed how I work with my clients and how I show up in the world.

If you have a calling to empower human beings then this training is for you. In fact I believe this training is a gift to anyone who wants to live with more freedom, peace and clarity. The world will not look the same after. You will be awakened to a new kind of seeing."

MODULE FOUR
NOVEMBER 2024

ONTOLOGICAL INQUIRY & LIVING BEYOND THE STORY

For you to experience how reality is created from where a being is coming from and able to distinguish this distinction in order for it to shift the place in which they stand.

CONTEXT

We do not see what is there we see where we are. In this module you will begin to learn how reality itself is created from the place in which a human being is coming from. Learning about the culture of human beings and how the identification of a story and character is created within the perception and mind of human being. In which the reality of that being will be a projection and a source of evidence to the story in which they have come to know themselves as.

Living in a cycle of survival and strategy in order to 'get somewhere' only deepening their existence in the story in which they are captive in.

Learning that we are not a someone in a life. That the 'me' in which we have come to know ourselves to be is the main character in the story in which we ourselves have written. Creating our own reality, leading to repeated circumstances and experiences that we think we are having. But in fact we are creating.

In this module we will dive even deeper into the perceptions in which human beings know themselves to be, led by the memory and programming of the mind, and the distinctions such as time and space that support the development of the story in which we thing is our life.

These stories and characters are not who we truly are.

Distinguishing the distinctions of time as a man made construct and dissolving this perception.

Distinguishing the distinction of space as a man made construct and dissolving this perception.

When we can begin to *be* with the story and *be* with all of life experiences we are no longer a *me* in a *life* but we can experience that we are life itself. Allowing life to be expressed through us rather than we are expressing the 'me' that we are 'in' life.

CONTENT

1. THE CULTURE AND NATURE OF THE HUMAN BEING

Learning the concept of the development of the story and the character in which we identify ourselves to be aligned with the programming within the mind and memory.

2. THE MIND

Learning about what the mind is and how our identification of the mind is what creates reality itself.

3. THE EMOTIONAL BODY

- Learning the difference between Feeling Emotions and Feeling Emotions.
- One is occurring in the present moment and we are able to be with.
- The other is a reactivation within the mind that we think is reality.

4. Learning of the frozen moment in time in which the split in consciousness begins and the identification of the story activates.

5. THE DISTINCTION OF TIME

Learning how time itself does not exist other than within the mind.

6. THE DISTINCTION OF SPACE

Learning how space itself does not exist other than within the mind.

7. Looking deeply at the story and character in which you have identified yourself to be and how that has created your reality and how to begin.

Are you ready to stop playing small and start standing in a space of pioneering leadership?

MODULE FIVE
JANUARY 2025

PAST REGRESSION AND BODYMIND MATURATION PROCESS

For you to be a space beyond your story in order to allow the maturation in a being to occur.

CONTEXT

This module is when you shift from the space of being a consumer to a producer of human maturation. The power in which you will be able to facilitate and coach another being is solely determined on the space in which you stand and come from.

In this module we will follow on from the powerful LIVE Intensive led by David Norris and for you to learn how to take a being through a deep regression process.

Facilitating a being to *be* with the frozen moment in time from childhood, trauma, pain, struggle, in which the story and identification of character was formed. And thus holding such a powerful space of being to allow the dissolving of this frozen moment to occur and the maturation of that being to continue once again.

I DISCOVERED DEEPER LEVELS OF POWER AND GROUNDING IN ALL ASPECTS OF MY LIFE AND WORK

This is a profound and valuable opportunity to grow in your practice, tap into your resilience and learn to co-create transformation for your clients. Bringing mind and body and heart together, I discovered deeper levels of power and grounding in all aspects of my life and work, met an amazing group of people and remain forever grateful for this unique, extraordinary and life changing year of training."

MODULE SIX
MARCH 2025

CROSSING THE THRESHOLD FROM CONSUMER TO PRODUCER

For you to re-establish your commitment and responsibility to being a producer of this work whilst leaving the consumer within you behind.

CONTEXT

There is a significant difference between being a consumer of maturation in this world and being a producer of this work. Once you are fully committed to who you are in this world and the calling that you wish to use your life for, then everything is an education in order to serve and feed your work.

Once we are standing and committed to standing a space beyond our story then all that we are and all aspects of our life are a source of education. As we are also human beings and thus how we see the world and others and the space in which we come from will always be an active commitment and source of evolverment and education for the offering that we are to other beings.

Alignment cannot be 'a little here and there' – alignment is all aspects of who we are in life and how we are being.

This module is the final completion of the training where you are able to recommit who you are now and the space in which you stand now to the calling and vision of your work in the world.

THIS TRAINING AWAKENED A FREEDOM, AN ALIVENESS AND SENSE OF POSSIBILITY IN ME

"I cannot speak highly enough of the contents & teaching. Each module was fascinating, insightful and taught at such a deep level. I felt so held throughout the whole process by Nicola, David, my mentors and the other wonderful women on the training. It was a privilege to be learning under Nicola and David, the experience and wisdom they bring together is very difficult to put into words. This is deep and at times challenging work but I truly loved every aspect of it and would do it again in a heartbeat.

I feel I'm just at the beginning of this process of becoming a maturation coach, even though the training has technically finished. There are so many layers to this work which I'm excited to keep exploring in myself with my coach and also bring to my case studies. This training awakened a freedom, an aliveness and sense of possibility in me and I urge anyone considering Alchemy of Being to join now."

IT'S BEEN A COMING HOME. A LIBERATION

"A learning how to be with myself, how to see myself as life moves and dances through me. The way of seeing myself in the world and how that has led me to see others, has allowed for a compassion and grounding that has taught me how to build an empowered, open heart to hold space to for others in this way.

It is hard to put into words the journey and impact this training has had on me and my life.

It is a deep dive into the world of yourself while learning how to support others in this deeply healing and empowering process.

I am forever grateful for the gift this has given me, it is an honour to become part of this lineage."
